D. SYNERGESTIC ACTIVITIES

1. TAF Innovation to Excellence in Learning Project: "Implementing Innovative Instructional Technology for the 21st Century Engineer," S. Ivey, PI, P. Palazolo, CO-PI, 2006-2007, \$71,400. Project involved creation of undergraduate GIS laboratory for civil engineering students. Designed to provide students with more engaging learning experiences in an effort to recruit and retain more students to the program.
2. "Girls Experiencing Engineering," P. Palazolo, PI, S. Ivey, CO-PI, 2004-2009, \$159,000 (funded annually). Program targets middle and high school girls and their science and math teachers to provide an introduction to engineering, hands-on design challenges, and interaction with female engineering professionals. Also includes a mentoring program for both middle and high school students.
3. Waste Assimilation Capacity Study – Loosahatchie River – Shelby County, TN, L.W.Moore, PI, P. Palazolo, CO-PI, 2003, \$92,000. Program involved mapping and determining the reaeration rates on stretches of the Loosahatchie River to determine the waste assimilation capacity and thereby set discharge standards for municipalities on the river. Prime responsibility was mapping and integrating field data into existing reach maps through GIS.

Biographical Narrative – Pat Harcourt, P.E., CPESC:

Stephen Patrick Harcourt, P.E. is a Senior Vice President and Partner at Askew Hargraves Harcourt & Associates, Inc. (A2H). A 1986 graduate of the University of Memphis, Pat is a Registered Professional Engineer in Tennessee, Arkansas, and Mississippi. He is also a Certified Professional in Erosion & Sediment Control.

For over 25 years, Pat has provided civil engineering expertise on infrastructure improvements for the City of Memphis and other growing communities across West Tennessee. Projects for the City of Memphis include the Bolen Huse Pump Station/Loosahatchie Interceptor, Mary's Creek Interceptor, Binghamton NSA, Smokey City NSA, numerous storm water studies across the city, and roadway drainage improvements. He has completed various sewer projects for the following cities and towns in West Tennessee: Alamo, Bartlett, Bells, Brownsville, Dyer, Humboldt, Parsons, Ripley and Somerville. Pat has also been involved in a wide range of industrial recruitment projects across the Mid-South including the initial engineering and site planning for the Memphis Regional Megasite in Haywood County.

Pat has also served as the Principal-in-Charge on multiple projects involving site development, grading and drainage plans, and site utility plans. His project experience includes coordination with state and federal agencies such as the Tennessee Department of Transportation and the Tennessee Department of Environment & Conservation. A large portion of Pat's career has been focused on assisting regional communities in the funding, development, design, bidding and construction of crucial infrastructure.

Signature  Date 5/11/12

May 18 , 2012

Born 1957 in Memphis,

White Station High, graduated in 1975

Memphis State and graduated in 1980, with a BS in Science Education

Worked for Shelby County Government from 1981 until 1990.

Went back to school in 1990, and received law degree in 1993 and passed the bar the first time, in July of 93. Law license is current.

I worked as a community organizer for the Mid South Peace and Justice Center from 1993 until 1997.

I was the first executive director of the Wolf River Conservancy 1997 to 2003. I supervised several grants valued at over a million dollars. I initiated and successfully acquired over 3,000 acres of land along the Wolf River that was eventually transferred to the State of TN for protection and is now open for public recreation.

I have held several positions within Shelby County Government in various environmental fields, In 2003 I was employed by Shelby County Public Works in their Environmental Programs office, and in 2007 I became the Supervisor for the newly created Air Quality Improvement Branch located within Pollution Control Section of the Shelby County Health Department.

I have spent a lifetime outdoors, and much of that on the water. It began with my father taking me to the fishing rodeo at Audubon Lake in the late 1960s. I hope to continue a lifetime of adventures outside with my wife Naomi Van Tol and daughter Rosa.

- Retired Chemistry Teacher from MCS after 39 years
 - Active at St. Andrew AME church
 - Served 4 years on the Shelby County Pollution Control Board
 - Previously active in the Girls Club and Urban League
-

I served as a teacher in Memphis City Schools for thirty-nine years. During those years, I taught chemistry, biology, physics and physical science. For four of those years, I mentored new teachers and was a science teacher in the Memphis Urban Systemic Initiative. I spent the thirty five years in the classroom in two high schools, Oakhaven High School and Middle College High School.

Because I taught chemistry for all of my thirty five years, I have learned both to value and respect the influence of chemicals in our bodies and in our environment. I have had the opportunity to attend and present at numerous National Science Teachers Association meeting which were held all over the United States. I have even had the opportunity to attend a Chemical Education meeting in Toronto, Canada. I have attended and presented at the Tennessee Science Teachers Association Convention on many occasions. At all of these meetings I had the opportunity to investigate and be further informed about the value of a clean and pollution free air and water supply to the quality of life for all people here on Earth.

There are two particular experiences that I had as a convention goer that made a great impression on me. The first was as an attendee at the Chemical Education Convention in Minneapolis, our group of teachers took the opportunity to see the origin of the Mississippi River. We rented a car and drove to Lake Itasca and were able to see the few feet of water that turned southward and eventually became the mighty Mississippi that we know and love here in Memphis.

My second experience that was significant for me was as an attendee at the Middle College Consortium in Greenville, SC. Before we attended the convention, we were asked to take samples and test them for various traits from the Mississippi River here in Memphis. The focus of the entire conference was about the value of clean and pollution free water for the survival and safety of all life on Earth.

I am very much concerned about the quality of the water here in our wonderful City and it would be an honor to contribute in some small way to the goal of protecting our water.

Kenneth J. Roberts

24 Goodway Lane

Memphis, TN 38117

I was born May 14th 1965 in Memphis, Tennessee. I attended Ridgeway High School and was the Class of 1983. I then studied at the University of Mississippi and was the Class of 1987. My area of study was Banking and Managerial Finance. Post college I worked for a banking consulting firm in Charleston, WV.

I married Lisa Breazeale Roberts in 1990 and we lived in Dallas, TX for the first 3 years of our marriage. I worked in healthcare consulting while in Dallas. We returned to Memphis in 1993 so I could begin working at Vanguard Manufacturing Company. I eventually was named President and CEO of Vanguard. In 2005 I sold the company and moved to my current position of President and CEO of Valley Products Company. Valley is a 68 year old manufacturer of soap and livestock feed ingredients. We have been at our Brooks Road location since 1946.

My wife and I have three children, Chandler, a recent graduate of St. Mary's Episcopal School, Jackson a rising junior at Memphis University School, and Evelyn a rising 7th grader at St. Mary's. We attend the Church of the Holy Communion where I have recently served as a member of the vestry.

I am an active member of the Young Presidents Organization, a continuing education organization for business executives. I am actively involved with local youth sports and coached in local soccer clubs for over 10 years. I have also served on the Board of Carnival Memphis.

Name: Roy Gunn
Title: Facilities/Utilities/Environmental Engineer
Department: Engineering
Years at Kellogg: 23 Years

EDUCATION

- High School Diploma, Melrose High School, Memphis, TN, 1970
- USAMMCS, Redstone Arsenal Alabama, 1971
- Bell & Howell Schools, (Correspondence), 1973-76
- Associate of Applied Science Degree, Electronics Technology, State Technical Institute, Memphis, TN June, 1978.
- Bachelor of Science Engineering Technology, Memphis State University, Dec. 1987.

My role at Kellogg's is to provide management and technical leadership within the Memphis facility. My primary responsibilities include planning, execution and maintenance of the Memphis plant facilities/utility equipment. Additional responsibilities include facility maintenance, environmental compliance, boiler room operations and related contract management. In this position I work closely with Project/Construction Manager, Contracted Services, Operations, and Corporate Research, Food Safety, Quality and Safety.

During my 23 years working at Kellogg I have worked the following positions:

Facilities/Utilities Engineer	Electrical Maintenance Engineer
Operations Shift Manager	Electrical Maintenance Supervisor
Packing Maintenance Planner	Maintenance Relief Supervisor
Senior Engineering Resource	Plant Maintenance Supervisor
Maintenance Manager	Processing Supervisor
Systems Engineering Manager	Packing Supervisor

I have become a results-driven and well-organized technical professional able to combine a blend of formal education with a solid, hands-on-background in manufacturing, engineering and maintenance.

I carry the Master Electrical license (E0010024) for the Memphis plant.

Profile

Over ten years of experience in managing health, safety and environmental compliance. Extensive knowledge across a wide range of environmental disciplines including: OSHA/EPA regulatory compliance and reporting, health and safety training, environmental site assessments, and remediation design. Represented Client interests and served as point-of-contact for all third party contractors and regulatory agencies. Provided senior management with measurable objectives for cost savings and increased profits.

Professional Experience

Smith & Nephew, Inc.
HSE Specialist II

Memphis, TN
January 2010-Present

- Managed air, wastewater and NPDES permits across four Memphis locations.
- Maintained SPCC and SWPP plans as well as OSHA-required safety programs for Memphis locations.
- Managed and maintained five wastewater treatment processes.
- Served as point-of-contact for regulatory and third party entities.
- Developed new recycling methods to significantly increase scrap revenue and reduce landfill expenditures while improving corporate environmental profile.
- Developed and managed "Starpoint" employee representative program to communicate and maintain HSE standards with shop floor employees.
- Maintained and updated chemical inventories and tracked material use for corporate and regulatory reporting requirements.
- Evaluated manufacturing processes, conducted environmental audits, and performed job hazard analyses.

Pickering Environmental Consultants, Inc.
HSE Project Manager

Memphis, TN
November 2008-November 2009

- Direct responsibility for job procurement, project estimation and budgeting, regulatory and technical research, field work, internal and external project supervision, QA/QC, data analysis, report development, Client satisfaction, and profitability.
- Specific project experience includes: hazardous waste management, Phase I and II ESAs, worker exposure monitoring, NPDES monitoring, SPCC Plans, comprehensive HSE audits, asbestos/lead/mold inspection, assessment, remediation design and construction management, training program development and course instruction, HSE program development and implementation.
- Served as point of contact for local and state and local air pollution control and solid waste management programs and technical expert in conflict resolution associated with work-related disability and personal injury claims.

Pickering Environmental Consultants, Inc.
Environmental Specialist

Memphis, TN
July 2002-November 2008

- Training and field supervision of employees engaged in a variety of environmental consulting disciplines including HSE audits, indoor air quality assessments, industrial hygiene testing and reporting, asbestos and lead-based paint surveys, and employee exposure assessments.

Darren Lippert, CHMM

110 N McLean Blvd. #1, Memphis, TN 38104
darren.lippert@smith-nephew.com • (901) 399-6605

- Conducted facility surveys and testing to determine the acceptable limits of exposure to contaminants or conditions including: noise, dust, fumes, vapors, mists, gases, solvents, and radiation. Reported findings and provided recommendations to eliminate or reduce employee exposures to environmental contaminants or hazardous conditions.
- Researched HSE regulations and updated company policies to ensure compliance and implement best practices.
- Participated in program development and provided training covering a wide range of HSE topics including HAZWOPER, SWPP, DOT, biological hazards, emergency response, respiratory protection, and confined space entry.
- Maintained website for Mid-South Chapter of Hazardous Materials Managers.

Mayhew Environmental Training Associates
HSE Trainer

Lawrence, KS
July 2001- July 2002

- Trained and certified over 250 individuals in lead based paint abatement occupations in English and over 650 individuals in asbestos abatement occupations in both English and Spanish.
- Interfaced with State regulatory agencies in audited training courses. Gained State approval as asbestos/lead-based paint program trainer in KS, NE, MN, NE, IA, IL, MO, TN, KY, AR, LA, and IN.
- Developed Spanish language training program for asbestos professions.
- Designed, built and maintained company website.

Technical Proficiencies

- Microsoft Office, AutoCAD, Website Development Software, and Photoshop.
- Proficient in Sitehawk and Mainsaver
- Fluent in Spanish.

Education

- Bachelor of Arts, Environmental Studies, University of Kansas, 2000
- Bachelor of Arts, Latin American Studies, University of Kansas, 1999
